

## Notes from initial build meeting

Art director: Adel Cynolter

Artist: Anaelda Ramos

- Make the menu the timeline and not have another timeline on the home page as it's repetitive
- Also for the homepage I know we said to only have her name in the menu, but I think for the home page it makes sense to have her name being big on the actual page and not have it at all in the menu; for the other pages the menu as it is is perfect
- Add some pictures of her performing on each subpage
- For the Eras tour section add pictures of her rerecorded album covers
